Cell Lines SPG7 Publication

08/081

IDENTIFICATION

Causal gene(s)	SPG7
Repeat size or mutation	c.1529C>T (het) and p.A510V (exon 11) and c.1449+1G>A (het) (intron 10)
Cell type	Fibroblast

DONOR INFORMATION

Donor gender	Male
Age at collection (years)	53

SOURCE & PUBLICATIONS

Originating lab / institution	University of Sydney
