Cell Lines SCA3 Publication

24

IDENTIFICATION

Causal gene(s)	ATXN3
Repeat size or mutation	75 CAG
Cell type	Fibroblast

DONOR INFORMATION

Donor gender	Female
Age at disease onset (years)	17
Age at collection (years)	30

SOURCE & PUBLICATIONS

Originating lab / institution	University Medical Center Groningen (UMCG)
Links to publications or public resources	Levels of DNAJB family members (HSP40) correlate with disease onset in patients with spinocerebellar ataxia type 3 - PubMed https://pubmed.ncbi.nlm.nih.gov/20726892/
