Cell Lines MSA/OPCA Publication

Patient 4 (MSA-C)

IDENTIFICATION

Causal gene(s)	GGC expansion in NOTCH2NLC
Repeat size or mutation	101-126 GGC
Cell type	Fibroblast

DONOR INFORMATION

Donor gender	Female
Age at disease onset (years)	58
Age at collection (years)	66

SOURCE & PUBLICATIONS

Originating lab / institution	First Affiliated Hospital of Nanchang University
Links to publications or public resources	Repeat expansion scanning of the NOTCH2NLC gene in patients with multiple system atrophy - PubMed https://pubmed.ncbi.nlm.nih.gov/32250060/
